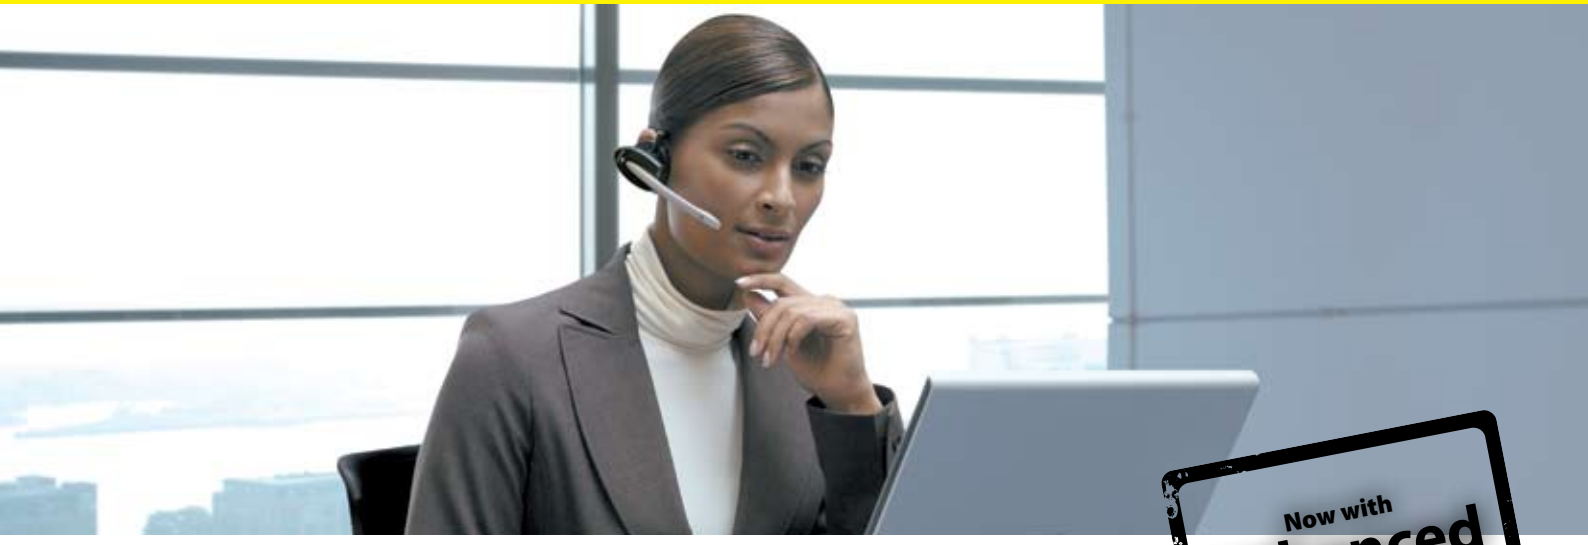
Jabra GN9330e USB



Now with **enhanced** range, sound & comfort

Superior sound and comfort. Wireless IP telephony.

The Jabra GN9330e USB* wireless headset gives you extra freedom of movement, enhanced sound quality and additional comfort for all your PC-based IP telephony conversations.
High-definition, wideband IP audio ensures you hear – and are heard – with superb clarity.

- Revolutionary wideband sound quality for IP telephony
- Extra clarity of speech with enhanced wind noise reduction
- Greater freedom of movement with increased range up to 120 meters
- Individual comfort with choice of wearing styles with soft and comfortable earpiece materials
- Exceptional ease of setup and use
- Full confidentiality with advanced digital encryption
- Sleek and stylish, modern design
- Up to 6 hours talk time without recharging

Talking has never sounded this good. The Jabra GN9330e USB is the first wireless office headset to offer true wideband audio. Its astounding 6.8 kHz frequency range is more than twice that of conventional telephony. Sound of this caliber gives you the feeling of a true "face-to-face" conversation, letting you get more done more easily because you hear every detail the first time.

Enhanced noise-canceling microphone technology together with refined wind noise reduction ensures that the person you're talking to always hears you clearly, no matter where you are in the office. And digital security encryption ensures that no-one else can listen in.

Headsets have never been more comfortable or so easy to setup and use. The Jabra GN9330e USB offers a choice of wearing styles with softer earpiece materials, and the headset connects quickly and effortlessly to your computer. The simple and intuitive controls make it easy to operate and with a weight of only 26 grams, you'll forget you are even wearing it.

The range of up to 120 meters means you can take calls anywhere in your office environment. You can keep an optional second battery charged in the base and even hot-swap it to give you around-the-clock talk time. In short, the Jabra GN9330e USB frees you from the limitations of your conventional telephone handset, providing hands-free convenience and freedom of movement, all-day comfort, and superb sound clarity.

* Also available in a version optimized for Microsoft Office Communicator 2007.

Jabra

Feature	Benefit
Truly wireless headset	The wireless Jabra GN9330e USB gives you true hands-free mobility and increased efficiency. No cables involved.
Up to 120 meters office range	Get maximum value from the office space. Move hands-free and unhindered throughout the working day. You no longer need to be beside your computer to conduct business over IP.
Full 6 hour talk time	The Jabra GN9330e USB comes with a single 6-hour battery. A second, hot-swappable battery is available as an accessory.
Standby-time: • 43 hours with power on base • 120 hours without power on base	Your Jabra GN9330e USB is always standing by ready for action.
3 h battery recharging time	You know your headset will always be ready for the next day's business.
Battery status indicator	The four LEDs in the base keep you informed of your headset battery status at all times.
Noise-canceling microphone	Enhanced call clarity by reducing wind noise and eliminating backgound noise from the office.
150 Hz - 6.8 kHz wideband audio	The Jabra GN9330e USB's revolutionary new wide bandwidth sound makes PC-based IP telephony conversation exceptionally clear and characteristic, enhancing detail and quality.
Mute function	The mute button is easily accessed, stopping your voice from being transmitted when you have to consult with a colleague during a call.
Volume control	Intuitive controls facilitate easy volume correction.
2 wearing styles: • On-the-ear (ear hook) • Over-the-head (headband)	Choose the style that suits your personal preference. The soft and comfortable earpiece materials ensure optimum wearing comfort.
Outstanding connectivity	The USB base enables effortless, quick connection to PC-based IP telephony (softphones); the plug 'n' play setup ensures trouble-free, intuitive, daily operation. For softphone compatibility, please check www.Jabra.com/gn9300usb
PeakStop™ technology – max 118 dB SPL (RMS)	Protection against sudden, loud noises coming across the telephone network.
Digital security encryption	The Jabra GN9330e USB digitally encrypts your calls, giving you complete calling security and conversation confidentiality.

Technology:	1.8 GHz DECT 63 mW transmission power
Warranty:	2-year warranty
Specifications:	Operating temp. 10° C/40° C Storage temp. 0° C/40° C Headset weight: 26 g Base weight: 255 g
Accessories:	Behind-the-neck (neckband) wearing style. Battery and charger cradle

The Jabra GN9330e USB meets the electric strength test and impulse test requirements of the international standard IEC 60950-1.
